

AGENDA

Leveraging Systemic Change: exploring emerging challenges, opportunities and pathways for transforming UK and global food systems

Programme overview

The programme will be highly interactive with short context setting presentations, small group work, and plenary feedback sessions. We will build off the momentum from the sessions in June for increased impact depth.

The workshop was designed with understanding that people will be present for the entire time, but we understand that there are a few people who have prior commitments and cannot attend the whole event and we will cater to this as best we can.

Attendance by invitation only.

Key speakers to be announced.

Wednesday 16 September

9:00–10:00 – Registration and networking over tea and coffee

10:00 – Official welcome

10:15 – June session recap and feedback review

11:00 – Keynote presentations and discussion

12:30–13:30 – Lunch

13:30 – Working groups on each of the four themes
