

## Exercise: Managing student expectations in higher education (15 mins)

### Step 1

- Students and lecturers to complete online [survey](#) about 'ideal' student **before** the session & download their answers for the session.  
([idealstudent.org](http://idealstudent.org))

### Step 2

- Group discussion **during** the session: *What are the most important features of a student at our university?* (5 mins)
- Each group to post their top five items on Mentimeter or a poster & prompt student rationales: *Why do you think X is important?* (5 mins)

### Step 3

- Class discussion: Lecturer to list/show their top five items.
- Discuss any mismatches (5 mins)

## Exercise: Managing student expectations in higher education (30 mins)

### Step 1

- Students to complete online [survey](#) about 'ideal' student & download their answers **in** the session. (5-10 mins)  
([idealstudent.org](http://idealstudent.org))

### Step 2

- Group discussion **during** the session: *What are the most important features of a student at our university?* (5 mins)
- Each group to post their top five items on Mentimeter or a poster & prompt student rationales: *Why do you think X is important?* (5 mins)

### Step 3

- Class discussion: Lecturer to list/show their top five items.
- Discuss any mismatches (5-10 mins)
