

LUNCHTIME SEMINARS

School of Mathematical,
Physical and
Computational
Sciences

Summer 2026

- 21 Apr** No seminar
- 28 Apr** **Takumi Matsunobu**
Quantifying ensemble forecast variability and
uncertainty interactions in convective-scale forecasts
- 05 May** **EGU week**
No seminar
- 12 May** **Catherine Toolan**
The role of anthropogenic aerosol in near-future West
African precipitation change
- 19 May** **Corey Robinson**
TBD
- 27 May** **Helen Dacre**
TBD
- 02 Jun** **Ambrogio Volonte'**
How do diabatic processes shape the dynamics of
bent-back fronts and the evolution of sting jets?
- 09 Jun** **Ben Hutchins**
Decadal prediction for the energy sector
