

Calendar of Events 2020-21

Because of Covid-19, most of our events and training will be taking place online. We'll ensure there are plenty of breaks for longer meetings. We are planning for small group learning (such as software development training) to take place in person but arrangements may have to change based on government and university advice.

We'll let you know of any changes to the calendar via the weekly email.

Scenario online socials take place weekly – see the weekly email for joining details

Dates for events and workshops in Spring and Summer terms will be confirmed nearer the time.
